THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON 25, D. C.

12 January 1967

MEMORANDUM FOR: Deputy to the DCI for National Intelligence
Programs Evaluation

SUBJECT : Need for a USIB Imagery Instrumentality

1. The Deputy Secretary of Defense and I have approved the recommendations of the Joint Imagery Interpretation Review Group. As you know, one of the Group's major recommendations is that USIB, as the authority responsible for monitoring and coordinating the implementation of a National Tasking Plan for imagery exploitation, establish an "instrumentality" to serve the Board in accomplishing this requirement.

2. I would like you to take the lead in developing a plan for this purpose and to submit this plan to USIB for its consideration. The plan should include the terms of reference for the "instrumentality" and a proposed DCID to describe its mission. Please consider ways and means to facilitate USIB's procedures and abilities to deal with all aspects of the imagery problem, including collection as well as exploitation.

3. Pending ultimate USIB approval of the "instrumentality," there is a need to proceed to execute the National Tasking Plan for imagery exploitation. I have designated Dr. R. J. Smith as CIA's Senior Representative to work with [] in this regard. You will, of course, stay abreast of their work as you develop your proposal.
